Harter Secret & Emery LLP

CELEBRATING 125 YEARS

About Harter Secret & Emery LLP:

Harter Secret & Emery is a full service law firm with a special and intent focus on information security and privacy issues. Its clients in the cyber and privacy spaces range from Fortune 100 companies to startups, with the firm having advised on some of the largest commercial breaches in the United States. Its cyber and privacy teams are interdisciplinary, applying appropriate expertise to the appropriate challenge, and its members have been recognized for their excellence by Chambers

USA. Team members speak and publish regularly on cyber and privacy regulatory issues, both in the US and abroad. Team lead F. Paul Greene is a Distinguished Fellow of the Ponemon Institute, and teaches Information Security Policy and Law at the Rochester Institute of Technology.

On the cyber front, Harter Secret & Emery provides the full slate of proactive and reactive services, ranging from risk assessments, table top exercises, and security assessments under the protection of the attorney-client privilege, to breach coaching and incident assessment. The firm has deep relationships with carriers and their service providers, and its clients span all major industries, from energy to higher education, from retail to healthcare, from manufacturing to technology. HSE advises on both US and international law in the cyber and privacy spaces, and has keen insight into the intersections between security, privacy, compliance, and policy.
